ANOTHER FROM ST. PAUL.

Mots's Men Field Loosely, but Hit Hard and Win. The game yesterday broke the record in this city for balky pitching. Not once this season has a batsman reached his base or a runner been advanced by reason of balk or an illegal delivery, but yesterday Mullane started the epidemic, and before it ran its course even Cross was affected. The visitors made themselves very dis agreeable, and it is safe to say that had Comiskey been in the city they would have conducted themselves very differently. They sulked and made a farce of the game in the early innings, and when they thought they had a chance to pull it out, braced up long enough to find out their mistake, when they again lapsed into their former disagreeable state. Tony Mullane started in to pitch for them, but did not last long. The home team showed a dis position to hit him freely, and in the midst of the first inning, after being warned twice by the umpire to stay in the box, that official began to call illegal deliveries upon him. McDermott was clearly in the right, as Mullane stepped at least eight inches out of the box when he pitched the ball. The truth is the pitching distance is now too great for the once famous twirler hopes to get the ball over the plate. He was in a rage when his delivery was called down and the result was that he went to the bench, Camp coming in to pitch, while Pepper went to center. Camp showed his inexperience in the box by advancing two runners on balks and was hit pretty hard in the short time he pitched. After getting four runs in the third and one in the fourth Comiskey's men thought they stood a show to win out, so Pickett called Pepper in from the field. He was given a rousing reception by his former comrades in the fifth inning, after which he did very well, but the game was hopelessly lost to his people by that time. It was a sloppy game throughout, about the only redeeming feature being a "circus" catch by Newell of Irwin's little fly to left field in the fourth inning, which the short stop ran for and

fingers. It was a one-hanued catch and a seemingly impossible one. Roat had a very pretty stop in the opening inning of Marr's grounder, and St. Paul's left fielder, Smith, had a couple of brilliant catches. The leaders were very much off in their fielding and the game was the worst of the season from a fielding standpoint.

A single by Hogan, Newell's sacrifice on which Hogan took two bases, and Canavan's single gave Indianapolis its first run, and three others followed on the balky work of Camp, Mullane going to the bench after sending Motz to first on the illegal delivery already referred to. Roat followed with a three-bagger along the left foul line and scored himself on Boyle's wild throw to second to head off Glenalvin, who had been given a base on balls. McCarthy throw to second to head off Glenalvin, who had been given a base on balls. McCarthy had gone out at first prior to this and McFarland retired the side on a fly to Pepper. Newell scored a run in the second on a life, Cross, who had reached first on balls, being thrown out at third on the play, while the short stop worked around to second. He scored a few moments afterward on a wild pitch. I wo more runs were added in the third, when Motz hit safe and Roat drove the ball to the right-center fence for a home run. St. Paul took a turn at scoring in this inning, Kraus getting a single, O'Rourke a base on balls and Irwin and Marr singles. Wild throws by Roat and Hogan were mixed up with this Roat and Hogan were mixed up with this hitting and four runs resulted. Both teams scored once in the fourth. Indianapolis on Hogan's two-bagger, a passed ball and McCarthy's sacrifice, and St. Paul on O'Rourke's single, McCarthy's fumble and C'Rourke's single, McCarthy's fumble and Roat's bad throw to the plate. In the fifth the leaders handled Pepper very roughly. Roat opened with another home-run drive to right center and Glenalvin reached first because Marr's foot was off the base when he caught Irwin's throw of Glen's grounder. A couple of long flys advanced the runner to third and he walked in on Hogan's home-run hit to right center. Newell hit to left for three bases and Canavan to left center for the same number, but, in crosscenter for the same number, but, in crossing second Canavan unfortunately stepped over the bag, failing to touch it. The ball was fielded in and the out was claimed by St. Paul and allowed by the umpire, so that Canavan's long hit counts only as a single. One more run was added in the seventh, when O'Rourke fumbled Glenalvin's grounder. A passed ball let him to second and he second on Cross's single. second and he scored on Cross's single. In the last half the St. Paul men took a batting streak. Pickett got a single. Camp a triple and Smith and Pepper doubles, earning three runs. The side was then retired. Pepper leaving third before Kraus's fly was caught by McCarthy and being called out by the umpire when the ball was fielded to that base. The game was then called to allow the visitors to catch a train for Grand Rapids. Twelve hunpeople were at the park. Score: A.B. R. H. O. A. ogan, cf ...... 4

NEW PITCHER SIGNED.

Blackburn, of Evansville, One of the Southern League "Cracks," Secured. Indianapolis has a new pitcher. His name s George Blackburn, and he has pitched great ball for Ollie Beard's Evansville team this season. In fact, he kept that club at the top of the Southern League almost all season. Indianapolis has been angling for him for a week or more, and landed him last night. He will arrive to-day, and probably pitch to-morrow. Blackburn pitched in 1893 for Augusta, of the Southern League, and last season for one of the Eastern League teams. He has been in the business for five years, and should prove a wonderful help to Indianapolis. With three reliable pitchers, the leaders should keep right along winning. There will be much curiosity to see Blackburn.

Minneapolis Here To-Day. The Millers will play here to-day and tomorrow, and Perry Werden, Captain Wilson and all the big guns in the Minneapolis team can be expected to make lots of noise around the ball park. Fisher will pitch for Indianapolis and Frazer for the visitors

According to the Louisville papers Cincinnati swelled the attendance at last Sunday's game in the latter city from 3,200 to 6,431, giving the last-named as "actual turn-stile count," while the Louisville club was paid for just 3,200.

Sixteen innings and only two runs on each side does not break the record for long-drawn-out games. Umpire McDermott says that the managers all want him away from home but not at home, as he gives the visiting teams an "even break" every time. He also says he makes it a point never to even up a wrong decision; that a mistake will right itself in the course of the season. The trouble with McDermott is that, in his anxiety to give the visitors a fair show, he overdoes the matter and the home team he overdoes the matter and the home team st. Louis.

A.B. R. H. O. A. E. suffers-at least that is the experience here. Manager Watkins is accused by the Kansas City Star of complaining continually when away from home of wretched umpiring. This is not true, and is unjust to the Indianapolis manager, who has not complained, but taken his medicine like a man. even when robbed by Battin in St. Paul and Hoagland in Detroit. It is true he in-formed President Johnson that Hoagland would not be allowed to umpire here, but that is to his credit, as Hoagland is known

to be a rank home umpire, while McDer-mott is anything but that. mott is anything but that.

The Terre Haute team was badly treated at Detroit on the Fourth by the cranks of that city, who deluged the visiting players' bench with firecrackers, large and small, and kept the "Terriers" busy dodging explosives during both games. That the visitors escaped serious injury is remarkable, and the affair reflects little credit on Detroit. Manager Strothers is largely to blame in the matter, for he took no steps to protect the Terre Haute players. He and the rest of the Detroit team seemed to enjoy the visitors' discomfiture. They have no love for Denny Long up there. He forced that \$300 fine on to Vanderbeck's team for leaving the field at Toledo one Sunday in May and forfeiting a game. That action on May and forfeiting a game. That action on Detroit's part killed Sunday ball in Toledo.

Nautilus Stakes Cuptured from Prisdin by Monaco in an Exciting Fipish-Other Running Races.

NEW YORK, July 11.-The best race of the day at Brighton Beach was the fourth in which only four of the original seven started for the Nautilus stakes, the best of the lot, Salvation and King Arthur II being scratched. From the starting point Paladin and McKee and Monaco and Deer Slayer ran as if they were harnessed for a four-in-hand, and then Monaco set sall for the leaders. He caught them an eighth from home and won in a terrible drive, with Paladin second by a short head came up within half a length of the other two. In the first race Lord Hawkstone, the favorite, had a sharp struggle for first, Duliere Larondie was the choice in the second event, but the best she could do was to finish third, beaten by Frank Harris and Article. Dorian scared all but three others out of the third race, and at prohibitive odds won handily in 1:401/2. The only time this has been equaled or beaten here was in 1892, when Potomac, a fouryear-old, carrying fifteen pounds less than Dorian, covered the distance in 1:40. Daily America was the favorite in the fifth race, and although he ran at the rear of the bunch to the turn and frightened his backers, he won handily. Factotum got second place just as easy as the winner got first. Summaries:

SARATOGA, N. Y., July 11 .- At the second day's session of the New York State while McKee dropped back and Doggett Bankers' Association Hon. A. B. Hepburn, of New York city, chairman of the committee on sound money resolutions, offered resolutions declaring for honest money and opposing inflation by free coinage of silver at the ratio of 16 to 1. Hon. Michael D. Harter, of Ohio, made an address on sound

The address was carefully considered and occupied over an hour in the delivery. Mr. Harter said, in part: "If the free coinage men were compelled to organize a party of their own their numbers would prove ridiculously small-only tolerable, perhaps, by comparison with Coxey's army. Let us make it safe and sure by redeeming and canceling the greenbacks and getting the government out of all banking business; letting the people conduct their own business affairs and supply all the paper money they need, providing for its prompt redemption in gold, and let the nations know that the United States is for all time a sound-

money, honest-dollar Nation." "The Money Question in the West" was the subject of an address by H. A. Yates, president of the Nebraska National Bank of Omaha. He said, in part: "Silver has not yet been demonetized. It

is still money and is doing a large share in regulating the commerce of the world. Sixth—Five furlongs. Fannie B., 20 to 1, won; Second Attempt, 8 to 1, second; Ameer, 4 to 1, third. Time, 1:03.

Joekey Matthews Hurt.

KANSAS CITY, Mo., July 11.—Jockey J. Matthews on Leumbria was badly hurt to-day, the horse running into the fence and breaking Matthews's leg and smashing his foot. One favorite, Roy, 3 to 2, won the last race in fast time. In the handicap, Fonschway, at 6 to 1, won by a neck from Euna, the favorite, at 5 to 2. The latter should have won the race, being three lengths ahead in the stretch, but Zuebler lost his stirrup and could not catch it again. Alladin, 4 to 1; Emperor Billet, 4 to 1, and Thurman being heavily backed. Track fair; attendance good. Summaries:

Dumped by Jim Hogg.

ST. LOUIS, July 11.—Two thousand people attended Fair Association Park to-day. The card was fair and the betting lively. The last race was a dump. Mercury was a hot favorite and heavily played at 8 to 5. The black bang tail went to the front early and held the lead well in advance into the stretch, when Jim Hogg came out of the work challenged the leader out was a to the provided of the work challenged the leader out of the work challenged the ences of speculation and combinations, the silver, instead of being obtained by forced purchases, as under our Sherman act, might instead be given an established mint price, just as gold is now priced at the Bank of England, and which price need not be higher than the average commercial value for the current year. At this price it could be received freely at every mint, so much of the bullion being coined at the present ratio as would be required for its purchase and the remainder held in its bullion form as a reserve instead of gold, and, as all of the mints would be open to it, this bullion could be used the same as gold in the settlement of international balances. We should in this way have free mintage instead of free coinage. The value of silver would be made steady all over the world. It is not possible that any considerable addition would be made to the volume of silver in the gold-standard countries

erable addition would be made to the vol-ume of silver in the gold-standard countries under this arrangement unless is was want-ed and the price was made sufficiently high to obtain it, but the monetary systems of these countries can easily sustain without injury or risk a largely increased amount of The convention then took up several subjects for discussion. James G. Cannon, of New York city, spoke on "Lesses from Bad Debts and the Part Taken by Statements from Berrewers in Preventing Losses." Judge Seymeur Dexter, of Elmira, discussed "Wasted Profits, Charges on County Checks and County Clearing Houses for Checks." Judge Hanford Struble, of Penn Yan, spoke on "What Is the Best Method of Making a Bureau of Protection Against Fraud."

The Hepburn resolutions were considered

The Hepburn resolutions were considered this afternoon and adopted, W. P. St. John, president of Mercantile National this afternoon and adopted, W. P. St. John, president of Mercantile National Bank, New York, alone opposing them. Judge Dexter, of Elmira, offered a resolution, which was adopted, that the association favor the appointment by Congress of a commission consisting of experts and business men to report to Congress a comprehensive currency system to meet the commercial needs of the Union. The report of the committee on constitution was read and adopted. The following officers were elected: President, James C. Cannon, New York; vice president, George B. Sloane, Oswego; treasurer, A. D. Bissell, Buffalo; secretary Ledyard Coggswell, Albany. The association will meet at Niagara Falls next year.

The Theory of the Digestion of Food.

The human stomach is a pear-shaped bag into which all food draps at once when swallowed. Three things happen-the blood rushes into the -ubstance of the storech (not into its interior) to heat it; thousands of little ducts or pipes pour coplously forto a fluid called the gastric juice; and then the stomach begins a wave-like, churning movement which thoroughly mixes the gastric juice with the food, and by and by changes the whole into a gray-looking, semi-liquid paste called chyme. This is digestion as it takes place in health.

But, look you. If the stomach fails furnish the gastric junce, or fails to furnish enough of it, the food simply lies in the stomach and turns sour, putrefies, ferments—as it would in a warm, moist als outdoors. This is indigestion, dyspepsia of gastritis. Having no other way of escape, the poisons so engendered pass into the circulation and set up a train of results litthese: Headache, foul taste in the mount oss of appetite and nausea, furred tongue disordered heart action, nervous we, and prostration, chills followed by flashes, distress and weight in the after eating, fugitive muscular pains, followed in time by grave local aliments, etc. All this, bear in mind, comes of a more of less complete failure of the stomach to se-crete gastric juice.

Having studied this subject for many

years, the Shakers of Mount Lebanon (AY.)-famous as medicinal chemists and herbalists-sought among the plants cult vated by them only for a remedy should have the distinct and especial of stimulating the flow of gastric jui a normal amount and at the same time. this purpose in view, yet it is the absolute ly essential thing. Successful in their et forts, even beyond their hopes, they hav placed their discovery of the market unce the name of the Shaker Digestive Cordial Its effects are immediate and radical. Re-lief is felt at once and a permanent curs soon follows. It is the sure and scientific remedy for indigestion and dyspepsia. Confident in their work, the Shakers offer trial bottles at the nominal price of ten cents. For sale by nearly all d
